When, Where, and How You Need it.

Bring DATAVERSITY to your workplace for high-quality, focused and customized education. It's convenient, cost-effective and the best way to get your entire team on the same page. Whether you are looking to update the skills of a project team, need solutions to specific problems, or just need to understand the latest technologies, we can customize your education to meet your needs.

Bring DATAVERSITY Onsite Education to your organization.

STEP 1 Contact DATAVERSITY to receive a complimentary consultation on your education and training needs.

STEP 2 We provide a thorough proposal including educational deliverables and cost breakdown.

STEP 3 Work with us to discuss your specific requirements with our instructor to ensure that the course content matches your business needs and education goals.

STEP 4 Choose the desired time frame and location you want the class to be delivered.

Benefits of Onsite Learning

- Your staff learns together as a team.
- You get in-depth, personalized interaction with instructors that's focused on your environment.
- We can tailor the presentation to meet your needs.
- Proprietary topics can be integrated into course discussions.
- You get more from your budget.
- Your team gets more accomplished in less time.
- Benefit from follow up consultation or mentoring with the instructor.
- Students can meet CPE requirements and credits.

Who are your instructors?

DATAVERSITY approved instructors lead this education and training, with the backing of our exceptional industry reputation, our international network of resources, and our solid corporate history and financial standing. DATAVERSITY is also GSA and ICCP certified.

Can the course(s) be customized to our organization?

Yes. Through the initial discovery process, you will have a chance to discuss your business needs and training objectives with a DATAVERSITY educational consultant. You may further discuss directly with the instructor if you wish. The courses can be tailored to fit the business needs of your organization.

What is the minimum number of attendees required to bring training onsite?

There is no minimum class size. However, our training can be cost-effective for as few as 6-8 students per class, depending on the instructor, location and the amount of customization required.

How long are the courses?

The courses last from one to five days, depending on the need of your organization.

Are classes available online?

Some courses are available online. Please contact us for more information.

Where can I see your complete course catalog?

Please contact Tony Shaw by phone or email for a list of Onsite Education courses.

Phone: (310) 283-6558
Email: tony@dataversity.net

What is the cost to bring DATAVERSITY Onsite Education to my organization?

Onsite Education pricing will vary depending on the need of your company and class size. All fees and expenses are defined in advance and agreed by you, so you are never surprised or uncertain about your costs.

We are also happy to structure and quote our services as you prefer, with bundled fixed-price fees to include all course materials, tailored training plans, travel expenses, etc., or if a detailed cost breakdown is preferred, then we can provide separate quotations for all items.
